December 1, 2023

Over the past several years, in an effort to keep rates as low as possible, Gonzales County Water Supply Corporation has been operating off non-operating income. As we prepare for growth in the years ahead, we must rely more on operating income (water sales). As a result, the Board has made the difficult decision to increase the minimum and usage rates for 2024 as follows.

The minimum availability charge per meter by type will be:

	<u>2023</u>	<u>2024</u>
Standard 5/8"-3/4"-meter	\$37.00	\$38.50
Full 3/4"-meter	\$72.00	\$73.50
1"-meter	\$107.00	\$108.50
1-1/2"-meter	\$215.00	\$216.50
2"-meter	\$285.00	\$286.50

The rate charge per thousand gallons of usage will be:

	<u>2023</u>	<u>2024</u>
First 20,000 gallons	\$3.00	\$3.50
Next 80,000 gallons	\$3.10	\$3.60
Next 150,000 gallons	\$3.20	\$3.70
Next 250,000 gallons	\$3.30	\$3.80
Over 500,000 gallons	\$3.50	\$4.00

These rates will go into effect for January 2024 usage, which will be due March 15, 2024.
